The Campus Bulletin

UNIVERSITY OF CALIFORNIA, SAN FRANCISCO SUMMER, 1971 Volume 4, Number 4

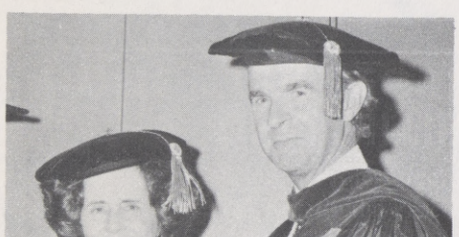
HONORARY DEGREES TO MRS. LASKER, DR. PHILLIPS THYGESON

Phillips Thygeson, M.D., Professor of Opthalmology and Director of the Proctor Foundation, and Mary Lasker, co-founder of the Lasker Foundation, were recipients of honorary L.L.D. degrees at the 108th Commencement exercises at UCSF.

Dr. Thygeson has devoted most of his career to the study and control of trachoma, a disease that is still the leading cause of blindness in the world. During his tenure as director of Proctor Foundation, Dr. Thygeson contributed "immeasurably to the training and education of investigators in ocular microbiology who have moved into teaching and research in leading institutions throughout the world."

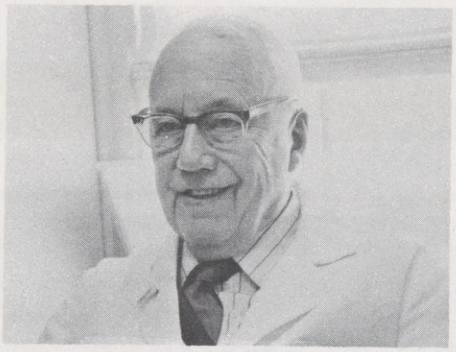
Mary Lasker is co-founder with her late husband, Albert D. Lasker, of the Lasker Educational and Medical Research Foundation. Noted her citation: "Mrs. Lasker's pervasive charm and enthusiasm have not been limited to the promotion of education and research, but also have been directed with equal vigor toward encouraging improved delivery of health services with emphasis on the prompt translation of advances in medical science to the care of patients."

Dr. Lee, Dr. Thygeson



Mary Lasker, Dr. Lee

The citation further acknowledged that "with profound and particular gratitude Mrs. Lasker's personal and continuing interest in research activities are specifically identified with the University of California's San Francisco campus."



Dr. Shaw

DR. SHAW, KERR LECTURER

Edward B. Shaw, M.D., Professor of Pediatrics Emeritus and one of this nation's leading pediatricians, was chosen by the UCSF Gold Headed Cane Society to deliver the William H. Kerr Lecture at the 1971 Gold Headed Cane Banquet, which followed the School of Medicine Convocation and Cane award ceremonies.

The banquet, held at the Mark Hopkins Hotel, was attended by members of the Gold Headed Cane Society (previous recipients of the Cane) and guests. Dr. Shaw's lecture was entitled, "The Gold Headed Cane—From Galen to 1971."

Dr. Shaw has been a professor on the UCSF campus for more than thirteen years. During his nearly fifty years of practice, he was Chairman of BayMac, the Polio campaign in which 3 million people received the Sabin vaccine; he served on the Surgeon General's Conference on Polio, and on the President's Conference on Pediatrics.

Dr. Shaw is also a leading authority on the problem of Sudden Unexplained Death (SUD), more commonly known as crib death.

Although Dr. Shaw has now retired from an active role as a professor of pediatrics, he will continue to study the health problems of children. In the Fall, *The Campus Bulletin* will contain a feature profile on Dr. Shaw and his colorful years of practice.

Dr. Nancy Doyle, caned June, 1971

GOLD HEADED CANE & CONVOCATION

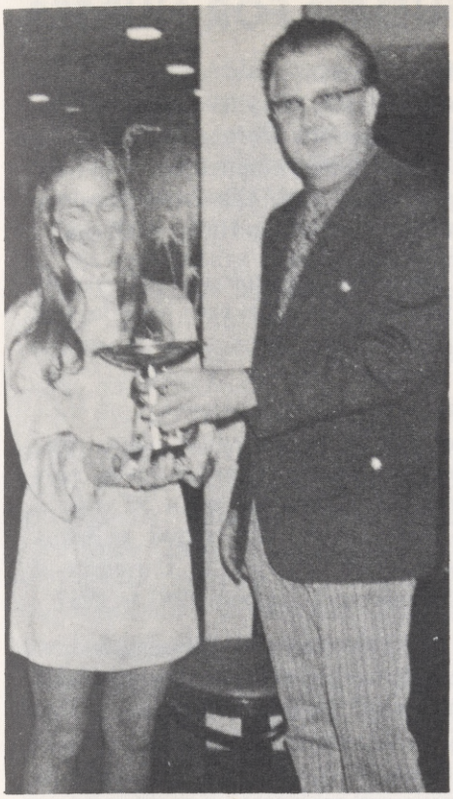
Nancy Edwina Doyle, daughter of SM/Sgt. Edward S. Doyle, USAF, was the first woman ever to receive the coveted Gold Headed Cane award as a graduating senior in the UCSF School of Medicine.

This is the first time in the history of the Gold Headed Cane ceremonies that all candidates were women. Runners-up were Marie Christine Feltin, and Bonita Klahn Vestal (who received her M.D. along with husband Robert Vestal). Only two other women physicians have been nominated in the past and both received second place: Ruth A. Seale, 1947; and Esther J. Janowsky, 1965.

Dr. Doyle is now serving her pediatric internship at Children's Hospital, Denver. She completed her undergraduate education at Ohio State University.

Marie Feltin, M.D., comes from Quebec, and received her Bachelor of Science degree from McGill University. She is interning at SFGH.

Dr. Bonita Vestal is a native Californian. Her parents, Mr. and Mrs. Fred Klahn, live in San Carlos. Bonnie was educated at Notre Dame in Belmont and did her undergraduate studies at Stanford. Her husband, Robert, is the son of Mr. and Mrs. E. H. Vestal of San Francisco. Both are now interning at Colorado Medical Center in Denver.



SHEILA WEST RECEIVES BOWL OF HYGEIA AWARD

The 1971 Bowl of Hygeia Award of the School of Pharmacy has gone to Sheila Kathleen West.

The Bowl of Hygeia is a replica of an ancient symbol of the profession of pharmacy and is bestowed upon that senior pharmacy student who in the eyes of the faculty and his fellow classmates "best demonstrates the qualities of the ideal pharmacist."

Miss West, who did her undergraduate work at UC Santa Barbara and Cal State at Hayward, served on the UCSF Curriculum Committee and was National Chairman of the Curriculum Committee, Student American Pharmacy Association. She was a Regents Scholar and president of her senior class.

Sheila is the daughter of Mr. and Mrs. John West of Lafayette, California. Mr. West is sales manager for Hofmann-La Roche pharmaceutical company.

This Fall, Sheila will work at Johns Hopkins in Baltimore, taking part in a research project which involves the role of pharmacy in the improvement of the delivery of health care.

DRS. CASTAGNOLI , MINES DISTINCTIVE TEACHERS

It is a tradition of the Academic Senate of UCSF to select annually a member of the faculty with less than five years of service for "special recognition for distinction in teaching."

Neal Castagnoli, Jr., Ph.D., Assistant Professor of Chemistry and Pharmaceutical Chemistry, and Allan H. Mines, Ph.D., Assistant Professor of Physiology in Residence, shared the 1971 award at the Commencement exercises.

Dr. Castagnoli's citation noted that "he has demonstrated the unique ability to bridge the gap between chemistry, biology and medicine in a meaningful way, and that his popularity with his students . . . his multidisciplinary approach to teaching and his contributions to student evaluation are shining examples of excellence in teaching."

Dr. Mines' citation noted that he has "demonstrated qualities of excellence in all areas of teaching."

DRS. MUSTACCHI, ANCONA HONORED BY ITALIAN GOVERNMENT

Two UCSF faculty members, Piero Mustacchi, M.D., and Giacomo Ancona, M.D., were honored recently when they received the Order of Merit of the Italian Republic, the highest honor one can receive from the Italian government. A third honor went to Andrea Liguola, a shipping executive. The honors were bestowed at a recent ceremony at the Italian Consulate here.

Dr. Mustacchi, Associate Clinical Professor of Medicine and International Health, and Associate Dean, CEHS, was honored as Cavalieri Ufficiale (Knight Officer) for his major contributions to the cultural ties between Italy and this country.

An even greater honor for Dr. Mustacchi, he has also been named Honorary vice Consul of Italy.

For many years, Dr. Mustacchi was president of the Leonardo da Vinci Society, an American organization devoted to the arts and culture of Italy. He has represented the Surgeon General in Rome and currently serves as the official physician to the Italian Consulate.

Dr. Ancona, Asst. Clinical Professor of Medicine Emeritus, was honored with an Order of Merit of Commendatore (Knight Commander). Dr. Ancona joined the UCSF faculty in 1939 on the invitation of former Dean Langley Porter (School of Medicine), and has remained active in the Allergy Clinic until a few years ago. Until 1939, Dr. Ancona was a professor at the University of Florence where he had already carved an excellent reputation for his research in allergy. He also served in official capacities: he was the physician to the Italian Royal Family and was often called upon to attend visiting royalty of other countries.

Dr. Ancona, 83, enjoys a broad intellectual life. He is a well-known musicologist and has just completed a collection of recordings of his own father, a noted Italian baritone of his time.

Both Drs. Ancona and Mustacchi reside in the city. Dr. Mustacchi's wife is the former Dora Lisa Ancona; she works as a volunteer in Dr. Sokolow's hypertension program. They have two children.

Dr. Mustacchi

Dr. Ancona

NORMA SHARP THOMPSON LOAN FUND ESTABLISHED FOR NURSES

Mr. and Mrs. George H. Sharp of Oakland, California, have recently established the "Norma Sharp Thompson Student Nurses Loan Fund" in honor of their daughter, Norma Sharp Thompson of Alameda, California.

Mrs. Thompson, who received national recognition for her work in the nursing profession, has been incapacitated for nearly five years because of illness. Because of her contributions to nursing and her continued interest, her parents have followed a tradition of commitment to the profession by establishing this nurses' loan fund to assist young student nurses.

Norma Sharp graduated from the U.C. School of Nursing in 1940 with a B.S. degree and became a Registered Nurse shortly thereafter. In 1941, during World War II, through the collaboration of the University of California and the American Red Cross, she was chosen to organize and teach a special accredited training program for Nurses' Aides at U.C. Berkeley Campus. This was the first and only Student Nurses' Training Course in the United States to be accredited for college or University students, and Miss Sharp (later Mrs. Norma Sharp Thompson) received wide acclaim in newspapers across the country for her fine record of accomplishment.

The first class of five students was graduated in early 1942, and in June, 1943, a class of 236 students graduated as Nurse's Aides. Mrs. Thompson comes from a family dedicated to the nursing profession. Her mother, Mrs. George H. Sharp, is a trained nurse; an older sister, Mrs. Donald Rountree of Concord, California, is on the staff at Kaiser Hospital in Walnut Creek; and a younger sister, Mrs. Lorraine Osteen of Oakland, was a medical-dental office nurse for many years.

Mrs. Sharp was also an instructor of Advanced Red Cross First Aid classes for many years in Berkeley.

Previously, Mr. and Mrs. Sharp established a similar nurses' loan fund at the Samuel Merritt Hospital School of Nursing in honor of a life-long friend, the first graduate of that hospital school of nursing in 1912, Mrs. Alta Durke Hawkins, who is now retired and living in Oregon.

Since the Thompson Fund was established, several gifts have been donated to it. A recent donation was received in memory of Col. Theodore "Ted" Haley, an illustrious graduate of U.C., who, in his undergraduate days, composed the famous "Stanford Jonah" rally song. Col. Haley, who spent 32 years in an Army career, later served as Safety Coordinator for all of the University of California campuses from 1947 to 1957.

The University of California School of Nursing has expressed its deep appreciation to Mr. and Mrs. Sharp for providing continued assistance to deserving students as costs of education increase, and for their continued interest in the School and its achievements.

NURSES' AIDS GET DIPLOMAS

NATIVE SONS HELP CLEFT PALATE CLINIC

In California today there are about 6,000 children under the age of fifteen born with a cleft palate, cleft lip or both. This is the second most frequent birth defect of babies in the State.

The Native Sons of the Golden West for the past twenty years has been primarily responsible for providing services to the children who are treated at the Cleft Palate Clinic, University of California, San Francisco.

At a recent luncheon the Native Sons of the Golden West President, David S. Mason III, presented a check to UCSF for $11,000, for continued support of the Cleft Palate Clinic. Vice Chancellor Erick K. Erickson, accepted the donation. He then presented a certificate of appreciation to Ivo R. Monti, past president and a founder of the Charitable Foundation, honoring the Native Sons for their work on the Cleft Palate Project during the past twenty years.

The Native Sons have given nearly $19,000 to the Clinic during 1971; and since the Foundation's inception in 1951, some $180,000 has been contributed to this one cause.

"Cleft palate may occur in any family, rich or poor, regardless of race or national origin," according to Dr. Egil P. Harvold, professor of dentistry and coordinator of the Cleft Palate Clinic.

"This crippling deformity may handicap a child in many ways. A child born with cleft requires long - term treatment throughout his growing years. If he receives proper diagnosis and coordinated treatment," said Dr. Harvold, "he can eventually lead a normal life. Without treatment he has difficulty in eating, his face appears deformed, his speech is difficult to understand and he may be unable to hear accurately. As a result, the child may be isolated from schoolmates."

At the Cleft Palate Clinic, specialists in diagnosis and treatment include the pediatrician, plastic surgeon, children's dentist, orthodontist, speech pathologist, audiologist, otolaryngologist, prosthodontist, radiologist, and a medical social worker. Coordination of the work of these specialties is essential; however, it involves costs the average family cannot afford.

The Charitable Foundation of the Native Sons of the Golden West is aiding many children. "Our Foundation's sole purpose is to alleviate suffering," said Ivo Monti. "We are grateful to all the chapters of Native Sons, who contribute to the Project."

ORGANIZATION BOOK ANNOUNCED

During August, the Chancellor's Office will be distributing to the campus the first edition of the UCSF Organization Book.

This book is designed to consolidate in a single official document all relevant information regarding the organizational structure of the UCSF campus activities and departments, the corresponding functions of each unit, and the individuals who are responsible for each unit.

The organization material presented in this document is intended to facilitate communication between departments and to assist in planning to meet the needs of the San Francisco campus.

Initially, copies are being sent to the heads of each campus academic and non-academic department, and to the heads of each faculty, staff and student group. Additional copies will be available on request as each unit reviews the book and determines its specific needs. The Office of Planning and Analysis, 1355 Third Avenue (extension 2911) compiled and edited the material for the book and will be responsible for its maintenance and updating and for distribution.

For further information, call Mrs. Patricia Hanggi or June Brevdy, 2911.

EQUIPMENT EXPERT JOINS R&D LAB

Electronics technician Jerry Henderson has joined Research and Development and will be available to service and repair most types of sophisticated scientific equipment in the medical center which might otherwise have to be sent out at considerable expense to departments.

Mr. Henderson comes from Van Waters & Rogers Co., and has extensive experience in the repair of such equipment as Bausch & Lomb spectrophotometers, International centrifuges; and PH meters including Beckman, Corning, Radiometer and Leeds & Northrup. He is also experienced with ultra-sonic washers, biosonic cell disrupters, incubators, vacuum pumps and Micro-hemotocrits.

Departments or laboratories using above equipment or any other types of research or testing equipment should contact Mr. Henderson or Leon Johnson, R&D, extension 1593, to discuss the kinds of services available.

SCHOOL OF DENTISTRY AWARDS JUNE 1971

Award	Recipient
American Dental Society of Anesthesiology	Edward Bruno
Willard C. Fleming Award	Paul Hansen
American Society of Dentistry for Children	Robert Aubuchon
Academy of General Dentistry	Dennis Gile
American Association of Endodontists	John Thompson
Guy S. Millberry Award	
1. Dennis Gile 2. Ernest Kahl 3. Gus Petras 4. Donald Guest 5. Stephen Reid	
Alpha Omega Award	Donald Guest
George A. Hughes Award	Richard Sasaki
Forrest H. Orton-J. Raymond Gill Award	Donald Ritzman
American Academy of Periodontology	Stephen Reid
Dental Hygiene Award	Linda Bernard
American Association of Orthodontists	Jon Sammann
Research Committee Award	Ron Barbanell
International College of Dentists	David Graham

FACULTY & FRIENDS RAISE $2400 FOR STUDENT LOANS

The faculty, members of the UCSF staff and other friends have donated a total of $2,416 to the Student Loan Fund, after the UCSF Faculty Wives Association made a direct appeal for donations.

Robert A. Derzon, Director of Hospitals and Clinics accepted the check from Mrs. Ralph Audy, outgoing president of the Faculty Wives Association at its recent annual membership luncheon.

At that time, the new Faculty Wives officers were announced: president, Mrs. Robert Featherstone; president-elect, Mrs. Jere Goyan; vice president, Mrs. Charles Carman; recording secretary, Mrs. Sam Esterkyn; corresponding secretary, Mrs. Leslie Benet; treasurer-elect, Mrs. Paul Negulescu. Mrs. Audy will be advisor to the group, and Mrs. Theodore Meyer was named an honorary member.

The Honor Roll of Donors for the 1970-71 Student Loan Fund includes:

Dr. and Mrs. John E. Adams
Dr. and Mrs. Robert Aird
Dr. Keith Anderson
Dr. Rainer G. Arnold
Dr. and Mrs. Arthur K. Asbury
Dr. and Mrs. Kirklin Ashley
Dr. and Mrs. Ralph Audy

Dr. and Mrs. Joseph Barbaccia
Dr. and Mrs. Paul Basch
Dr. and Mrs. James H. Bennett
Dr. and Mrs. John C. Bennett
Dr. and Mrs. Leslie Benet

CYSTIC FIBROSIS GRANT TO UCSF

Grants totaling $22,500 were made to the University of California, San Francisco and to the Children's Medical Center of Northern California, Oakland, for the 1971 operation of Cystic Fibrosis Centers, John W. Cutter, president of the Northern California Cystic Fibrosis Chapter, announced this month.

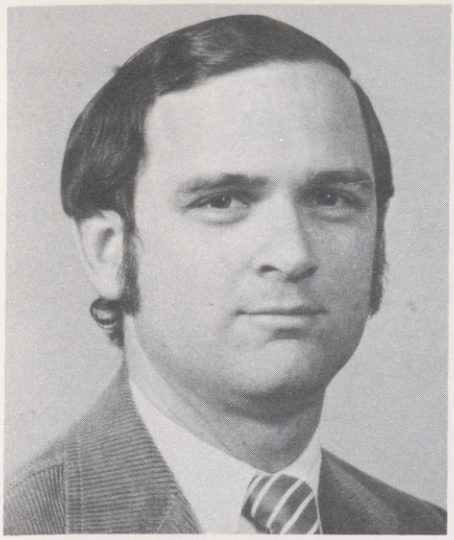
UCSF is among the 116 centers in 41 states which offer diagnosis and care to children with cystic fibrosis and other lung-damaging diseases such as severe asthma, chronic bronchitis and childhood emphysema.

PFIZER SCHOLARSHIP TO BILL JUREWITZ, MED STUDENT

Second year student in the School of Medicine, William H. Jurewitz, is the recipient of a $1000 medical scholarship from Pfizer Laboratories.

The award is for the 1970-71 school year and was presented to Bill Jurewitz on the basis of academic qualifications.

BULLETIN BRIEFS



Melvin Korobkin, M.D., has received the American Association of Radiologists Memorial Award and Medal for excellence in radiology research.

Dr. Korobkin is a Resident in Radiology and a Fellow, Academic Research Training Program in Diagnostic Radiology.

He resides in San Francisco with his wife, *Dr. Rowena Korobkin*, a 1970 UCSF School of Medicine graduate serving a pediatric internship at Children's Hospital, Oakland.

* * *

Melvin N. Scheinman, M.D., is one of two recipients of a five-year teaching scholarship from the American Heart Association. Dr. Scheinman is Assistant Professor of Medicine and Associate Director, Coronary Care Unit, SFGH. Under the scholarship, he will devote full time to medical teaching in the cardiovascular area, chiefly at the undergraduate level.

* * *

Five UCSF scientists have received American Cancer Society grants totalling more than $148,000. They include *Hugh H. Fudenberg, M.D.,* $54,600, to investigate the possibility that certain people are more susceptible to cancer than others; *Thomas P. Singer, Ph.D.,* $41,700 to study living cells as they relate to malignant growth; *Ernest Kun, M. D.,* $20,600 for the study of enzyme reactions in normal and diseased livers; and two postdoctoral fellowships to *Seymour R. Kupor, Ph.D.,* $14,800; and *Maurice E. Bush, Ph.D.,* $7,800.

Lynn Spitler, M.D., Assistant Professor of Medicine, has been awarded an 18-month grant of $37,000 for her studies of Multiple Sclerosis. The award was made by Mrs. August B. Rothschild in behalf of the National Multiple Sclerosis Society.

William A. Lipari, D.D.S., has been awarded a Dental Teacher Training Fellowship by the American Fund for Dental Education for the second consecutive year. This fellowship is sponsored by the ADA. Dr. Lipari received his D.D.S. degree in 1970 from Loyola University and is doing post-graduate work in oral biology and periodontics here.

* * *

Julius R. Krevans, M.D., Dean, School of Medicine, was Convocation Speaker at the UCLA School of Medicine Convocation. His speech was titled, "A Defense for Biomedical Research."

* * *

Congratulations to *Dr. Albert Laureto,* Research Associate in Biochemistry and Biophysics, whose daughter, Estela, has graduated from San Francisco State College. Miss Laureto was five when her family came to the U.S. from the Philippines. Dr. Laureto, an oral surgeon from Manila, also has a son, Rolando, 21, a City College student.

* * *

The late *Dr. William M. Silliphant* honored: The opening of the Medical Museum at Walter Reed Army Hospital, Washington, D. C., was celebrated recently, and one of its four main halls was named the "Silliphant Hall of Current Events," in honor of William M. Silliphant, M.D., Associate Director of the Cancer Research Institute at UCSF until his death in 1967. Dr. Silliphant was a Rear Admiral U. S. N., Retired, and a former director of the Armed Forces Institute of Pathology at Walter Reed.

* * *

EAST BAY COMMUTERS: East Bay Commuter Bus directly to UCSF. Interested persons should contact Margaret Gerson, extension 4161 or 2367.

* * *

Herbert A. Perkins, M.D., Associate Clinical Professor of Medicine, has been appointed for a three-year term to represent the American Association of Blood Banks, Division of Medical Sciènces, National Research Council of the National Academy of Sciences. Dr. Perkins has served as Research Director of Irwin Memorial Blood Bank since 1959 and is a hematology consultant here, at Presbyterian, Mount Zion, VA and Martinez VA hospitals.

* * *

Mrs. Ada Sue Hinshaw, lecturer in the School of Nursing and now a member of the University of Arizona faculty, has been honored by the National League for Nursing with the Lucile Petry Leone Award, the highest national award given to a person as "outstanding nurse-teacher." Mrs. Hinshaw until recently was Assistant Professor and coordinator of the first year faculty here. The League awards committee praised her for an "unusually high degree of leadership in baccalaureate nursing education not only at her school but on a national level."

* * *

Frank M. Yatsu, M.D., Assistant Professor of Neurology, and *Joel J. Elias,* Associate Professor of Anatomy, were selected by faculty members and students to receive the annual Kaiser Award for Excellence in Teaching. Each received $500.

* * *

The National Institute of Child Health and Human Development, NIH, has awarded grants to two UCSF scientists: *Teh P. Lin, Ph.D.,* Assistant Research Anatomist, has received a $31,800 grant for a two-year period. His research project is entitled, "Fusion and Development of Mammalian Blastomeres." *Ian M. Monie, M.D.,* Professor of Anatomy, was awarded a three-year grant in the amount of $41,600 for his project entitled, "Studies of Multiple Congenital Abnormalities."

AWARD RECIPIENT

Doris Wellenkamp, R.N., Head Nurse, ICU at U.C.S.F., received the Silver Service Recognition Medallion from the San Francisco Heart Association. She was honored for her service as a board member from 1967 to 1970 and as secretary during 1970 - 71. She has been re-elected as secretary for 1971 - 72. Miss Wellenkamp has been active in the Heart Association's Nursing Education and Professional Education Committees and many in-service educational programs. She is pictured with two recipients of the Silver Distinguished Achievement Medallion, *Rodman D. Starke, M.D.* (left) and *Philip Lasky* (right).

The Campus Bulletin is published by the Office of Public Information, University of California, San Francisco. Send news information for publication to Donna Chaban, 1332–3rd Avenue. Copy deadline is one month before publication date.

The CAMPUS BULLETIN is published eight months per year. In October, November, February, March and May, the Campus Bulletin will be available in newsstands at ten central locations on campus. In September, December and June, the CB will be mailed to the homes of all students, faculty, housestaff and employees.

A FACULTY FOR COMMUNITY INVOLVEMENT

A faculty already involved in more than 180 different community projects has embarked on a speaker's bureau service financed through personal contributions by UCSF faculty.

The UCSF Committee for Faculty-Community Involvement is providing, at no cost, speakers for community organizations, together with a list of topics to fit the needs of the group. In addition, special tours of the medical center can be arranged on request.

This new committee was created through the Academic Senate and, according to Dr. Gerold Grodsky, "within seven days of its inception, personal contributions from the faculty and students poured in, fully funding the program. Response was incredible."

Dr. Grodsky, chairman of the committee and Professor of Biochemistry, added, "we feel that our speaker's bureau will be a happy, positive and human step toward a direct provision of information to people at the personal level. At the same time, it is very important for our faculty to get a direct feeling of the more immediate needs of people by going out beyond the campus."

A faculty member spends an average of 60 hours a week in teaching, research and patient care (collectively, our faculty treated over 400,000 patients last year). Along with their students, they work in a variety of community efforts including free clinics, child care centers, mobile dental clinics, mental health programs, drug treatment programs and educational programs in conjunction with the public school system.

To arrange for a speaker, interested organizations are invited to contact the Committee for Faculty-Community Involvement, UCSF, 1487 Fourth Avenue, San Francisco 94122 [666-2047]. There is no cost to the requesting organization.
